

## SAF Series

**For fish pond circulation, Power saving, Big flow**

These big flow submersible axial flow pumps are our company's new international patented design, which adopts extra-fine materials such as Italian high quality wearproof carbon-ceramic dual mechanical seal, 316L anti-corrosive stainless steel motor shaft, built-in imported over-heat protector, AISI304 motor shell and pump shell, high strength composite plastics etc. With the advantages of big flow and small power, 24hours duty, power saving and durable, low noise, easy installation. These pumps are especially suitable for water circulation and filtration for marine aquiculture and ornamental fish pond.
